

## **MEMBER ALERT**

### **Novel Coronavirus (2019 - nCoV)**

The 2019 novel coronavirus (2019-nCoV) is a new virus that originated in China. The Centers for Disease Control (CDC) in conjunction with the California Department of Public Health (CDPH) and local county public health departments are the best resource for current information.

JPA/SISC encourages member district to work with their county public health department in providing information and resources to concerned families and staff. Links for up-to-date information for both the CDC and CDPH are provided below. In addition, two documents from the CDC are attached that provide helpful information in addressing this concern with your families and staff.
